CHECKLISTS

General Report Comments: We arrived at the stables and we stood in front of the gate. We then flashed our lights until someone on the inside saw us and walked towards the gate.

We were then let in by one of the workers and we asked to speak to the owners. He then referred us to Brandon who is the manager there. He then directed us to where we should go.

While driving through we noticed the horses in good condition with rain jackets and they were moved away from the flooded area camps.

We then met up with Brandon and explained to him what the complaints were about and he seemed annoyed. He then explained to us that he has 46 stables which are already filled with horses so therefore will contact owners tomorrow to issue a warning for shelter for the horses on the outside.

To follow up tomorrow.
