CHECKLISTS

General Report Comments: Elani and I arrived at the gate of the estate. We then spoke to the security and we asked him to contact the owner of the house that we need to do the home inspection for.

He then contacted the owner and the security then guided us towards the house.

We arrived at the property and was greeted by their two sons. We then introduced ourselves and they allowed us inside in order to inspect the premises. We went inside and saw that they already have cat bowls aswell as cat food but no litter box yet. We then informed the boys that they would need to get a litter tray in order to keep the cat inside for the first month so she could get used to the new environment. They then agreed and said they were planning on getting one. The cat will also live inside the house and sleep in the sons room.

Overall the place seems pet friendly aswell as a calm and nice environment for the cat to adjust and live.

Homecheck passed.
