General Report Comments: I, Elani arrived at the property and met with the mother and daughter. As we went inside of the property, Missy and Ninook was in the front yard. Missy is an older Labrador and docile whereas Ninook is extremely energetic.

Outside they have access right around the yard. At the back there is an enclosed parade with couches that can count as shelter and there are also a kennel in the front yard. The yard is very spacious. They had access to water. They sleep inside the house at night.

We went inside and the dogs can sleep anywhere they choose. The owners use WAGH as a veterinarian. I educated the owners that they need to keep the cat inside for the first month and slowly introduce the cats to Ninook. I told them to separate the cat and Ninook for the first few weeks. They are going to get a child safety gate from the friend to do this. During the day, they will keep the dogs outside and the cat inside. They understood everything that I explained to them.

Homecheck approved.
