CHECKLISTS

General Report Comments: Hugh and I Elani arrived at the property to see how far the owner has come with the horse enclosures that he is building. He was not there but his worker named Nelson was busy at the new bottom enclosures.

He told us the owner is not there. He also showed us that all the camps poles are in place now and the fencing the owner bought that they need to put up around the poles. He also said they must still get the roofing of the shelter and then everything will go quickly.

We then told him to let the owner know that we will come and check again within 3 weeks on how far they have come. He told us he will tell the owner.

The waterlogged camps did not have horses inside at the time of our inspection.

To recheck new enclosures and shelter within 3 weeks.
