General Report Comments: Hugh and I Elani arrived at the property and met with a woman named Junita Manuels. We introduced ourselves and explained why we were there. She gave us access to the property. We saw that there are two german shepherds kept on the left side of the property. There was fresh faeces seen and a box that was torn up. They can go to a part of the back where there is a veranda (afdak) but no adequate shelter. They also had a bucket of water here. Junita told us that the dogs get Bravecto every three months. The dogs belong to her son in law.

I then explained to her why we are issuing a watning to:

- 1) Ensure yo groom both of your dogs from excess hair within 4 days.
- 2) Provide adequate shelter for each dog within 14 days. You can buy or build a kennel that os big enough for both dogs with raised flooring, three sided and waterproof roof.

Junita signed the warning on behalf of her son in law Manfeed de Kock.

To follow up on grooming on Monday.
