General Report Comments: I, Elani arrived at the property and met with Leani.

They have a big yard with one Labrador. Leanis parents stay on the one side of the house whereas she stays on the other side. They do not own any animals at the moment and bought everything for the cat already. I educated her on integrating the cat slowly to the household and she seemed ingormed about this.

Her parents have the labrador. He was inside their part of the house when I arrived. There is also an enclosed area connecting the two houses. Lokis water was here and all his other things were inside the house. The only issue is that Loki is not sterilized. I explained to all parties involved why it is important to sterilize Loki and that we fo it for R550. They agreed to have it done. I informed Liz about this as well.

Otherwise I passed the homecheck as they are two different entities on one property .

To recheck within a year.
