General Report Comments: I, Elani arrived at the property. I went to the main house and they own three large dogs, a great dane, a boerboel and a German shepherd with shelter and water.

I called Lizelle to inform her I am there. After a while, Lizelle came to me and explained that the house belongs to the owner of the farm. She took me to the back of the house which is totally seperated from the front with wooden fencing. There is a large envlosed piece of land and one Jack Russel fog and 5 cats belonging to other tenants.

She lives alone in a one bedroom space and works from home. She owns one cat that is sterilized and in good condition.

She has everything the cats need such as beds, toys, bowls, food and litter trays. I eplained to her the process of introducing a new kitten to a new space and she understood completely. Luckily she is always there and can supervise the kitten settling in. The Jack Russel living at the back is used to cats and does not even seem interested in them. She has her cat on Dotsure and placed Flora on it as well already. She uses Wellington WAHG as a veterinarian.

Home check approved. She will pick Flora up tomorrow.
