General Report Comments: Hugh and I Elani arrived at the property and found a large group of people outside saying all kinds of things. I went onside and spoke to Monriza who is 18 yo. She explained that they want to surrender the mother dog but keep the puppies to sell. When I asked her what age they are, she said a month. I asked her whether they are eating but she said they are not.

I then said I cannot take the mother as the pups still need her. Therefore I noticed she did not have access to water and her kennel was closed by the entrance with a panel. She also said they feed pap and potato peels. I then explained why the dog needs dog food as a staple.

I issued a warning to:

- 1) Ensure Ruby and the puppies has access to water at all times.
- 2) Ensure to feed Ruby twice a day with adequate food (Puppy food such as Bobtail puppy) within 48 hours. - Do not feed potato peels, pap and bones.
- 3) Ensure that the dogs have access to adequate shelter within 48 hours (break entrance open).

Monriza signed and accepted the warning.

To techeck compliance within 48 hours.
