General Report Comments: I arrived at the property and met with Bradley. He is working night shifts and his wife works day shifts, so there are always someone home.

Their home is on the ground floor that allows them to have an enclosed garden. This garden has wire electrical fencing.

They have a dog that already had a meet and greet with Karen and it went well. He is not sterilized yet and will only be done in January 2025 as he has a crypt orchid. They use the veterination at Vet World Okavango.

They have two rabbits in a large layered cage. This was clean, they had blankets, water and an enclosed space with bedding/hay. They are sterilized and the cage was extremely clean. They do let them out at times.

Lovely home and couple.

Home check passed.
