General Report Comments: I arrived at the farm and went to where Jackie and her husband stays. Most of the farm has electric fencing except their property. They have a 1.5m fence surrounding their property. They have. 1 cat and one dog that is used to cats.

The animals are free to go in and out of the house as they please and the owners are home throughout the day.

Their neighbours animals are cat friendly too and kept inside their property. They use WAGH as their veterinarian.

Very nice house for Harry to go home to. They will slowly introduce him to the inside of the house and later the rest of the property.

Pre home passed. They will fetch Harry on Thursday.

To do post home in a year
