| CONFINEMENT OF ANIMALS          | Static Chain - inadequate length ** | TJ and Daisy |

General Report Comments:     Hugh and I, Elani arrived at the house in question. Caroline was not home but the children were. When asked about the puppies, they said they were born 1 June 2024. The puppies did look to young for us to take the mother dog, therefore we would rather return in two weeks until they can eat on their own. We told the kids to inform Caroline about this.

Owner: Mr Pieterse  
The dog was on a static chain without water and emaciated. I issued Warning 028 to:

- 1) Fix the running chain (obtain swivel) within 7 days.
- 2) Place piping around neck within 7 days.
- 3) Clean the kennel within 7 days
- 4)Provide water for your dog at all times (bucket in tyre or crate)
- 5) Provide TJ with adequate food twice a day (no bones, pap and potato peels) - preferably puppy food.
- 6) Provide your dog with dewormer (Keep proof) within 72 hours.

Owner: Morne Fransman (ID#89011952360860, cell# 0635191859)  
I issued Watning# 029 to:

- 1) Daisy is kept on a static chain with an inadequate collar.
- 2)Ensure to provide Daisy with a running chain within 7 days.
- 3) Provide Daisy with an adequate collar within 7 days.

All the other houses animals were enclosed and free roaming in the property and in good condition.

To recheck on Thursday, within 7 days and within 14 days.
