CLEAN LIVING ENVIRONMENT	Yes	
ANIMALS IN GOOD CONDITION	No ***	Some dogs at barons kamp is underweight and has mange
VETERINARY PROBLEMS / HEALTH CO	Yes ***	Mange
CONFINEMENT OF ANIMALS	Static Chain - inadequate length **	Captain is semi-aggressive apparently

General Report Comments: Elani and I,Hugh arrived at barons kamp and we were greeted by various tenants,dogs were seen from the gate aswell as roaming in the streets.We then introduced ourselves and explained what we were there to do.They were very welcoming and we could then see that they needed help and seemed like they were living in an underprivileged area.

We were then granted access to the property by the tenants .We then asked who the owners are of the animals and they responded that all of the tenants there have one or more dogs on the property.Elani then started taking descriptions of the dogs and we noticed Gia who was covered in mange,underweight and in bad condition.They then immediately mentioned that they want to sign Gia over.While taking descriptions we saw a pitbull named Shadow who was in good condition but isolated from the rest of the animals and seemed aggressive.

We then spoke to them and told them that they could go to our mobile outreach clinics but there would be costs involved.We then continued our inspections and we arrived at a dog called captain.He was on a static chain and inside his kennel,when one of the tenants tried to get him outside the kennel in order for us to see him,he almost bit the tenant and seemed really aggressive.We then issued warning 027.

Walking back towards the gate we then noticed the dog Danger who was also in very bad condition due to mange and the owner mentioned they want to sign him over aswell due to the fact that his losing his hair and does not want to eat.

We then mentioned to them that most of the dogs are already experiencing hair loss and they should decide who they want to surrender because they have too many animals and it seemed as if they were struggling and looking for help.We then asked them whether they would want to sterilize their animals and they agreed to that. We also want to provide the dogs with products in order to help with the mange.

Warning 027 was issued to:

- 1.Provide Captain with a running chain within 7 days as he is on a static chain.
- 2.Ensure that Captain always has access to water(place bucket in tyre to prevent knockover).

Elani and I,Hugh arrived at the property of 10 Adam's street and was greeted by Cherise witbooi. We then introduced ourselves and explained what the reasons for our visits were and she was welcoming and gave as access to the house.

When asked how many animals were on the property,she mentioned that they only have 2 dogs and we noticed the dog roaming in the streets.Her dog was Leah and while inspecting her the owner mentioned that she's pregnant again and we informed them that we could sterilize her while being pregnant.Leah was in good condition and a very friendly dog seemed healthy.

She then told us to follow her entering the house.We then arrived it the back of a Wendy house and saw the pitbull Max,but she mentioned that the owner of Max was not present at the time. We then asked why he wasn't put on a runner and she explained that the neighbour's dog constantly jumps the fence and they are scared he jumps the fence and attacks Max while he's on the runner. We then requested a different spot for the owner to put the runner because Max was not in adequate space aswell as didn't have water.The shelter provided for Max was also not adequate.

Warning 028 was issued to:

- 1.Provide Max with adequate shelter within 7 days(Raised flooring,3 sided walls,waterproof roof).
- 2.Ensure Max will always have access to potable water(place bowl in crate/open tyre to prevent knockover).

To follow up Monday.

ACTIONS

Warning Issued

027 and 028

REPORT OUTCOMES

Follow-up inspection to be conducted 2024-07-29

INSPECTION ANIMALS

Description:

1 x DOGS (X BREED (UNKNOWN)) - AN UNSTERILISED MALE CALLED 'Karel' (COLOUR: Brown and black) CONDITION: Good
