General Report Comments: Hugh and I, Elani arrived at the farm and found the houses in question. There were a total of 18 dogs and 5 cats. We went around each house to see the living conditions of the animals . Most of the dogs were free roaming around the houses and most were unsterilised. There were 3 female dogs that had puppies. Here are the details as follows.

Moos Faro owns a ginger and white cat, a female unsterilised dog with 2 puppies.

Lene (0622612589) owns an old dog named Factor xbreed male and Cindy female xbreed and a male puppy.

Magrieta Kruger owns an emaciated female dog and male puppy. I issued a warning to:

- 1) Provide Katjie with adequate food within 4 days. Buy puppy food, feed twice a day. Do not feed potato peels, mielie pap, bones.

Magrieta mentioned they will get money on Friday to buy food.

Lena Martin (0633066307) owns Bollie a white and brown xbreed unsterilised male, Tiger a black and white male xbreed of which both were on static chains in dirty living conditions. Bollie was emaciated.

I issued a warning that Geraldine Williams signed to:

- 1) Provide both dogs with adequate food twice a day within 4 days. Do not feed potato peels, pap, bones. I recommend getting puppy food.
- 2) Provide each dog with a running chain within 7 days.
- 3) Clean the dogs living environment/ inside of kennel from hazardous material within 4 days.

Bully Male dog.

Black and white Colliex named Water

Philip Louw (0769629718) owns Suzie a brown female x breed with an abscess on her face

Diewieck a white and grey male dog that roams on the farm.

Geduld Basjan (0632327548) owns Bully a brown and black male young dog.

I issued a warning to:

- 1) Provide Bully with adequate shelter within 4 days. Remove sponge, if Bully ingests this it can lead to death. Provide Bully with a raised sleeping area.

Maria Jacobs (0738889945) has three dogs named Boesman a black and white xbreed , Oja a black and brown female x breed and two 3 month old puppies and one cat. Maria mentioned that she wants to surrender the two puppies and Oja as Oja chases the horses on the farm. We told her we will be back Monday to pick up the dogs after she spoke to the owners.

Joseph Absalon (0769649239) owns Spotty male xbreed and one cat. We dewormed Spotty.

Hugh and I went to the front office to speak to the owner HS Smit. We met with Deon (Farm Manager) and Maria Kruger and she explained to us that many of the people in the houses doesn't work there anymore and HS Smit is long gone. The farm belongs to her grandfather. We explained the situation and gave them the amount of animals that are there and requested whether they can help fund getting the animals sterilized but they did not want to as they have tried that before. Maria took all the information from me and said she will manage to deduct the sterilization costs from the worker salaries and let us know when we can pick the animals up for sterilization. Most of their issues here are Law Enforcement related.

To return Monday for recheck and surrenders.
