ADEQUATE SPACE AVAILABLE	Yes
CLEAN LIVING ENVIRONMENT	Yes
ANIMALS IN GOOD CONDITION	Yes
VETERINARY PROBLEMS / HEALTH CO	No
CONFINEMENT OF ANIMALS	Free roaming - in property

General Report Comments: Hugh and I, Elani arrived at the property and met with Adanan . It looked like they cleaned the yard quite a lot.

Adanan told us they do not have any dogs anymore but they do still have cats. There are quite a lot of people staying on the property.

We went to the back where Suwaida stays as she has most of the cats that are remaining . There are two sterilized female cats and one white unsterilised cats. We did not observe the white one but the other two that were there did not show any signs of Snuffles . Hugh and I explained the symptoms to them and told them they must contact us immediately if any other cat gets sick.

When asked where the three Snuffles cats stayed , they claimed that those three stayed in the front house. The remaining three stays at the back. I educated them to keep the other cats away from that house for now and clean it properly.

They were interested in sterilizing the white female cat that was not there at the time of our inspection. We told them that they should save up R650 and call us when they have the funds to sterilized her.

No Contraventions of the Animals Protection Act 71 of 1962 were found at this property.

Case can be closed.
