ADEQUATE SPACE AVAILABLE	Yes	
CLEAN LIVING ENVIRONMENT	Yes	
ANIMALS IN GOOD CONDITION	No ***	One of Edwina Terus dogs were underweight.
VETERINARY PROBLEMS / HEALTH CO	No	
CONFINEMENT OF ANIMALS	Free roaming - property not adequ	

General Report Comments: Elani and I, Hugh arrived at the business in order for us to speak to Pierre. We then called Pierre from the outside and he opened the gate for us to meet him at his office .

We then arrived and we greeted him as well as introduced ourselves .We then asked him where the farm is that he wants us to inspect he then mentioned that it's at the back of the business and said that he had a meeting with them to inform them that they need to sterilize or they would have to surrender their dogs as the dogs are causing chaos on the farm. He then said that they had agreed to this. He then told us in which direction we should drive to arrive at the farm.

We then left and headed towards the farm .

We arrived at the farm and saw a few dogs running on the farm but the condition of the dogs were okay.

We first went towards Leanne Roman's house and we greeted some of the tenants and introduced ourselves as well as explained what we were there to do. We then asked how many dogs they have. They then showed us the 1 dog (Rexi) that they have and she looked in good condition. They also mentioned that they have 2 cats as well with one who's a female and a male called Kietsie. They were also informed about the sterilization. (0731967199)

While at Leanne's house John Verster also arrived and I spoke to him and he showed me the three dogs that he has and they were in good condition. He had one male named Jessie who was a little older and sterilized. He also had a dog named Pokkels a female also sterilized. The last one he had was Rexi who was not sterilized yet but was keen on sterilizing. (0722256509)

We also asked him about another house and he mentioned that "Jongman" lives there. He has Snoopy who is a unsterilized male but "Jongman" was not home and Snoopy looks in good condition.

We then moved towards Edwina Terus house and she was sitting outside when we asked her how many dogs she has. She then showed us her three dogs behind proper fencing as most of the dogs of the tenants were running outside. We then noticed that there was a smaller dog who was underweight who's named Blommie. We then explained to her and she said that Blommie's weight increases and then starts decreasing again at certain times. We then asked her whether she had dewormed her dogs yet and she said no. She then bought deworming from us and dip for all her dogs. The other dog we saw was Brownie who was slightly underweight but not worrying. We then saw Kleintjie who was the mom of both Blommie and Brownie, she was in okay condition. We then spoke to her and she mentioned that she will also sterilize her animals. (0698940360)

We then arrived at Johanna Teras and we greeted her and asked her how many animals they have. She then mentioned that they have two dogs and one cat. We saw Baby and she seemed in good condition and very lively. We then saw Oortjies who was in okay condition and seemed to love her owners a lot by following them around everywhere. She then brought Kietsie who's a female cat from the inside and she seemed very comfortable but got scared when seeing us and ran inside the house but looked in good condition.

We then asked the tenants if the house across them had any dogs and they mentioned that the owner is Arrie Jacobs and he only had one dog named Sökkies who is a unsterilized male .

Next to Arrie lives Brendan Appolis who has two unsterilized cats but was not at home .

We were then accompanied by Johanna Teras and she guided us towards the other animals .

We then arrived at Bennie Heyns house and we noticed his one dog who was in good condition and very protective of his owner. We then spoke to him and he mentioned that he knows about the sterilization and was willing.

Johanna then provided us with "Jongman"s name and mentioned his name is Abraham Solomon .

She also told us that there was another tenant named Hendrika Draghoender who has one dog but wasn't at home at that time.

To follow up on Monday in order to speak to Liz about sterilization dates .
