General Report Comments: Hugh and I, Elani arrived at the property and had to call George to tell us where the workers with animals are. He explained to us where to go. We found where we should be. There are 13 animals of which three were surrendered to us. There are 6 male dogs, 3 male cats and 1 female cat.

Jeremy Kumbora 0719014617

He owns Spotty and Molly. They are both free roaming. Spotty had slightly open wound but it was not infected. I advised him to keep the wounds clean with low salt water and he said he is going to go to the petshop to get something. Spotty did not have water. I explained to him why he needs water at all times. Jeremy immediately complied and gave water to Spotty.

Franglin Williams 0738889945, ID 8411065139082

He owns Bubbles and Kietsie. Bubbles is kept on a static chain with dirty water and no shelter. He also owned geese. I then explained to him about how to set up a runner and issued a warning to:

- 1) Provide Bubbles with a running chain and adequate shelter as discussed within 7 days.
- 2) Ensure Bubbles had access to water at all times (Place bucket in tyre)

Christiaan Arendse 0748352149

He owns Whitey and Garfield. Whitey is free roaming . They had a kennel that was turned upright and empty water bowls. I educated his wife to keep the shelter bin on its side throughout the day so that Whitey can access it and she immediately complied by giving him water in an ice cream bucket.

Denzer Andreas 0797019614, ID 8606606237084

He owns chickens and Rex. Rex is freeroaming in his enclosed yard. He technically has shelter under a massive veranda. He did not have water. I explained to Denver why he should have water at all times and he complied by filling a bowl of water for Rex. He also had chickens kept in an enclosure with no water and in darkness. This was next to an adequate chicken coop. There was lots of hazardous material/rubble that he needs to remove. I also advised using crates as nesting boxes for the chickens.

I issued a warning to:

The chickens were kept in an enclosed small space.

- 1) Ensure that they always have access to clean drinking water.
- 2) As discussed provide nest boxes and clean the chicken enclosure from hazardous material within 7 days.(Move chickens to enclosure).

Leah Kumbora 0788214249

She owns Roxy and 2 puppies. She decided to surrender one puppy over to us and Roxy. She kept Ceaser which I dewormed.

Selina Djos

She owns 2 cats and a puppy named Chagatai. She decided to surrender her pregnant female cat over to the spca.

To inform George of the numbers of animals present tomorrow . To do a recheck within 7 days on Bubbles and the chickens.
