Comments:	Luciano and I, Elani arrived at the ste when the complainant called us to thank us that we came out so quickly. I asked him to show me the dog. He told me to go to number 5 Nelson road and speak to the woman staying there. Turned out it was this womans dog that was bitten. They then informed me that Law Enforcement and Cleansing came out earlier to pick up the carcass and give the owners from 14 a letter. The dog that was killed was in the road outside its property when the other dogs killed it. I reiterated that this is a Law Enforcement matter and explained what we do and gave them information pamphlets. This man lied to me by telling me the dog is still alive just to get me to come out for no reason.
