General Report Comments: I, Elani arrived at the property and met with Ashley. The property is fully enclosed and they have two horses as pets outside.

The house itself is being renovated and is fully enclosed with its own fence as well. There are three enclosed enclosures around the house to keep the animals seperated from the feont gate.

The dogs were outside and they have an open pool outside. They also have an envlosed stoep area for the dogs as shelter. The dogs are allowed inside. All of the dogs are old and is cat friendly. Snow has cancerous growths, Rusty has back problems, Annabelle cannot walk or eat and Cotton has hip problems. We had a long chat about euthanasia of the animals . They said Dr Van Zyl from WAHG are visiting them tomorrow to check all of the dogs and will definitely euthanize Annabelle . They also use Uitzicht Vet. They are interested in both Seun and Lady

The cats mostly sleeps upstairs. They both work from home. And they are going to put up a baby gate to prevent the dogs from going upstairs. They feed their dogs very well with Lionels choice and other oils and remedies.

I explained the breeds to them and that Lady is extremely energetic for the old dogs. They said they are planning to euthanize all four dogs but will let us know the way forward.

I pass the home check for both dogs if most dogs are euthanized. If some of the dogs are going ro be kept, I will most likely allow one to go to them.

To follow up tomorrow on what happened.
