ANIMALS IN GOOD CONDITION	Yes	
VETERINARY PROBLEMS / HEALTH CO	No	
CONFINEMENT OF ANIMALS	Free roaming - in property	

General Report Comments: Elani and I,Hugh arrived at the property and we were greeted by Liezel. We then introduced ourselves and explained to her what happened in our last inspection. We then had a look around and could still see no water for the dogs.She then mentioned that they want to sign over the dog called Rex.

We then walked to the back where the puppy was confined and we had a look in there .Elani then saw that there was food in there which means they still confine the dog.She then asked why the runner had not been built but liezel did not have any answers as it wasn't her dogs. We then explained to her why it is important for her to build the runner. We could also see a running wire laying in the back which meant that they have the resources to build the runner but they just did not want to as the dog is free roaming.They were also cleaning a certain part of the yard.

We also explained why the dogs should always have water as it was very hot .

Warning 114 was then issued to:

-Ensure that staffing has access to water at all times .

-I found that staffies kennel had fresh food and wad still closed with faeces inside .Ensure to clean this living space and keep it open at all times.Alternatively Ensure to build a running chain within 72hours.

To follow up Monday.

ACTIONS

Warning Issued 114

REPORT OUTCOMES

Follow-up inspection to be conducted 2025-02-03
