General Report Comments: Elani and I,Hugh arrived at the property. We then called from the outside and the owners came outside. We then greeted them and they then allowed us in. We explained that we were there to check on the welfare of the animals as they were covered in ticks. They then understood and explained that they had been unemployed for a long time, they only started working recently.

We then understood and agreed that we were here to help. We also explained that if they would want to surrender the animals they could. They then let us walk through and we came to the backyard. We could then see that it was dirty and it needed cleaning. We explained that they can clean it themselves or pay someone to clean. We would come back in 2 weeks to check on the progress that they have made. They then agreed.

Warning 113 was then issued to:

- Ensure to keep your dogs safely in the backyard/house to prevent injury to animals/children.
- Provide all three dogs with adequate tick/flea treatment within 14 days as discussed.
- Clean the backyard thoroughly from hazardous material within 14 days.

To follow up within 14 days.
