General Report Comments: Hugh and I, Elani arrived at Kevin's property and was called by his mom that showed us her dog at the back. Milo does not belong to them but to their neighbours at 1 agans Street. They have three dogs of which one is pregnant and the Ridgeback x named Monsookie is chained at the back of the property. When asked why he was chained, Sarah said he runs out and bites people in the road.

Monsookie was seen on a static chain with shelter that was broken on the sides and was not waterproofed. There were also rubble surrounding him. Sarah claimed her husband can weld very well. They also said that he breaks all the chains and wires he gets put on. We then scoped the property and saw a pole and a tree that os rooted on the ground. We explained they can build the running chain thereand move the water and the shelter there. We also explained about sterilization and gave them the pamphlets for that.

I issued a warning to:

- Provide Monsookie with a running chain within 7 days as discussed.
- Fix the kennel so that it is closed on three sides and have waterproof roofing to protect Monsookie from the weather elements within 7 days.

Follow up within a week.
