General Report Comments: Inspector Elani and I, Trainee Inspector Hugh arrived at the property. We then knocked from the outside and the house keeper opened the door. We then greeted her and explained to her that we were there to do a post home inspection on Thor. She was hesitant to let us in as she did not have the owners permission.

Elani then called Aletta who's the owner and she gave us permission to enter the property. We entered the property and could see as we walked through to the back that there were multiple shelters in the property as well as food/water stations.

The housekeeper then informed us that all the dogs sleep in the home and there is a cat as well who usually lays on the couches.

We were pleased by the dogs condition as well as the two jack Russels that was also on the property.

Overall Thor has grown well and his condition as well as living environment is adequate.

Post homecheck approved.
