CHECKLISTS

General Report Comments: Sheldon and i,Hugh arrived at the property.Munefa then came outside and we greeted her,she then allowed us access.

We then went inside and she took us to the back area.I could see that the space was large for the cat aswell as the home.She mentioned that they have another cat which i could not see at that moment.He was sterilized and they wanted Simba because they surrendered him due to them being scared they are not spending enough time with him.

Overall the home was large and adequate.Homecheck approved.
