General Report Comments: Elani and I,Hugh arrived at the community.We then approached:

1 Green dolphin street:

We were then greeted by Fransiena Stuurman.She then allowed us access and we could see that Kate had fresh drinking water.We then moved around the corner and we could see that Kate has a massive kennel.We then dewormed Kate.No further action.

3 Green dolphin street:

We approached the property and called from the outside.Dolly van wyk then came outside and we asked whether they had complied with the previous warning.She then started making excuses and we asked her to put the dog away so we could assist them.

She then put the dog away and we went to the dogs kennel. We saw that it was adequate the only problem was that it was not raised from the floor. We then placed bricks in the front to raise the kennel and cleaning it.No further action.

3 Koala street(intersecting street):

We arrived at the property and called from the outside.Jacob van Staden then came outside and we asked him whether they had complied.A young man who is suspected to be their son was also present.They then allowed us access and we saw that they had not changed the shelter but it seemed as if their dog buksie could access the shelter. We also saw that buksie had fresh drinking water.We then dewormed buksie.No further action.

11 Green dolphin street:

We arrived at the property and the static chain was no longer there both dogs were roaming freely in the property.We were then granted access by Anthony Mars daughter and we dewormed both dogs.No further action.

3 beaver street(intersecting street)

We arrived at the property and were allowed access by the tenants.We then saw that they had cleaned the area and fixed the shelter.The mother dog whos name was Kiara was still roaming freely in the yard.We then gave them puppy food and dewormed them.No further action.

13 Green dolphin street:

We arrived at the property and called from the outside.Adrian then came outside and we greeted him.He then allowed us access and he informed us that he had not placed a kennel but opened the one side in order for the dogs to move in an out the garage at will.He also cleaned most of the hazardous material.No further action.

16 Green dolphin:

The owner always works but we noticed that the dogs are free to go wherever they want as the fencing is not adequate.The dogs look in okay condition and we tried calling the owner but the number does not exist.We also tried whatsapp but the owner never read the message or responded.We could see no welfare concerns from the gate as dogs can roam freely .

No further action.
