Comments:	Wiehan came to the SPCA to speak to me. He gave me the proof that he took the dog to WAHG and got antibiotics and anti inflammatory for his dog. He said he goes to the farm three times a week. I asked who will give the medication and he said Johan. I told him he mist be strict as the medication wont work unless you give it as instructed. I asked why the dogs dont go home with him and he claimed to have a dog aggressive pitbull at home. I also told him that i saw Johan feeding his dogs white bread only as the food was finished. He reassured me that he buys Johan and himself dog food but he thinks Johan sells it. I said this is concerning and he also told me Gordon will be moving into the house in March. I asked whether I can do a recheck after the meds as he was instructed to go back if it doesnt subside. The veterinarians couldnt say whether it was an abcess or not. To recheck Wednesday
