Comments:	Luciano and I Elani followed the complainant to where the puppy jas crawled into a pipe under a cement walkway next to the main road. We tried yo lure with food but it failed. We then tried the control pole which was just too short. Ons the other end we tried to push theough rubble to pish the pup out but there was also a bee hove making it extremely difficult. We then asked neighbours for help and ended up to meet a welder that helped us with a long extendable paint pipe. The public helped us and we freed the puppy. We ended up with 4 dogs in our bakkie surrendered and stray. This rescue took us an hour and a half to do. NFA
