General Report Comments: Elani and i,Hugh arrived at the property.Rachel came outside to greet us and allowed us access.

We saw the two dogs that were on the property seemed like they had wounds on their body but Rachel informed us that it was mange.We then explained to her that the dog they surrendered over to us was in extremely bad condition.We also showed them images on how the dog looked after they tried treating the dog.

We educated them on euthanasia and also gave them our mobile clinic details .We educated her on nexgard for both dogs as they have a suspected skin condition.

Elani then issued warning 213 to:

-Provide Nora and rover with adequate tick and flea treatment within 7 days as it appears that they have mange(nexgard,bravecto)

-Simba was left without veterinary treatment for a ptolonged period of time leading to unnecessary suffering.You can be held liable for prosecution in cases like these .

To follow up on friday.
