SPCA G2/40

14 Feb. 25

Puppy presented to me at Wellington Animal hospital. Lacerated wound on left hock area with sub cut emphysema of the tarsal and metatarsal. Severe swelling of the hind paw. Non-weightbearing lameness present on left hind and wound is infected, purulent discharge visible. Severe tick infestation. Ticks present within ear canal, all over body and between digits.

Mucous membranes were pale pink, and the dog was pyrexia.

Kind regards

Dr. Barry Koch
