Comments:	Hugh and I, Elani went to the neighbours at 16 Eike road yesterday to find out whether the cat that we caught were theirs. We met with a man and a woman and they claimed that they have about 7 cats and are missing a black and white male cat. They confirmed all their animals are sterilized. We then educated them about microchipping and gave ideaa on how to keep their cats in their property. We confirmed the cat that we caught were theirs. Without telling them who complained, they assumed it was Harold. They immediately came to claim their cat from us and microchipped him and bought dewormer for all of their animals. To close case as we will keep on trapping the owned neighbours cats . Will give feedback.
