General Report Comments: Hugh and I, Elani arrived at the property and called Imke. She said ahe is home but in a meeting and that we can enter and check her yard.
Turns out they have moved in recently. It is a large plot that is a bit rundown. The front yard that has access to Hermon road is not suitable as the fencing is notsuitable and dogs can escape. However against th house, the have a large camp where the dogs are kept to run freely that is secure. There was a kennel, space water and a pig and piglet. The dogs are allowed inside the house throughout the day. Imke works from home which makes it easier to monitor the animals.

I voice messaged her afterwards to raise my concerns regarding the front gate and pigs. Ahe said when they take the dogs in the front yaed to exercise, they do it on lead as they are scared of snakes and plan to clear out and fix the yard on the future. She also said ahe will monitor the pig introduction and if the dogs dont get along with the pigs, she will make sure the pigs are kept seperately. There is definitely enough space for this.

Because of the management in place and set up already there, I have approved the home check.

To recheck property in a year.
