General Report Comments: Elani and I,Hugh arrived at the property and called from the outside.Ilze then opened up the door and allowed us access.We then spoke to her about the previous warning and she mentioned they had not cleaned yet.

When asked why they had not complied she mentioned that they had someone who would've came but disappointed them.Elani then explained to them that they can do it themselves as there were many easy tasks that could be done.

We then asked which tick and flea treatment they had got and she showed us a bottle of blue death which was not the right product.We then educated them and mentioned that they should get karbadust or dip instead.

We then gave them dip and educated them on how to use it.We also gave her our mobile clinic details again.

Warning 121 was then issued to:

- Ensure all dogs have access to water at all times.
- Clean the dogs living environment from rubbish and hazardous material within 7 days.

To follow up next Thursday.
