General Report Comments: Elani and I,Hugh arrived at the property and asked the security whether she knows of any geese being kept in bad conditions.She then responded that she does not know of any.

We then drove inside and saw a worker.We then asked him where the geese are and who's geese it is.He then responded that we should go to reception and ask there.Upon arriving at the reception we met with Isaac who is also a worker there.He then greeted us and we introduced ourselves. We then asked to speak to the owner of the geese who he referred to as Willa Bothma.He then mentioned that she was on holiday and wasn't available at the moment.

We then asked to speak to a superior who was there at the moment.He then referred us to Sandra and we met up with her.She welcomed us in her office and we had a chat.She then said she'll take us through to see the geese and we walked towards it with Isaac accompanying us.

Upon arriving there we could see one big cage with a separation in the middle.When asked why it's separated Isaac mentioned that the chickens are separated from the geese as he's scared they'll fight.We then explained to him that the one geese does not have shelter and water if he seperates them that way.He then mentioned that he can put her with the others but they bully her. We then asked him to open up the separation and we'll see if the chickens and that one geese gets along.He then did so and they got along well.

We then took a look at the other cage where the rest of the geese were being kept and it was acceptable.Isaac also added that they will be releasing the geese in a pond close to them soon.
