General Report Comments: Elani and I,Hugh arrived at the property and called from the outside.Jevandre then came outside and greeted us.We then introduced ourselves and explained why we were there .

He then allowed us access and we took a look inside.He then explained that he's dog is on a chain in the front because he moves the dog forward for the sun that's in the back.The dog has a running chain in the back but the running chain in the front is broken this is why he was on a static chain.

We then walked to the back and told him that he can put the dog in the back .He then agreed and we moved the dog to the back on the runner in the shade.

We also gave him dip and asked that he makes the runner more stable by tomorrow .

To follow up tomorrow.
