General Report Comments: Elani and I,Hugh arrived at the property and saw one of the tenants. We then approached her and greeted her.We asked her where Moos lives and she pointed us in the direction where we should go.

When we arrived there we noticed that it was a house from an previous inspection. We then saw Magrieta Kruger and greeted her.She then allowed us access and we asked her whether her dog has puppies again.She then replied yes and we proceeded to look at the puppies all dogs seemed in good condition.

We then asked her what she feeds and she mentions that she feeds bobtail but at the moment she feeds food from home.

We then educated her and gave some of the tenants deworming .
