As we were waiting I heard him speaking to Mrs Joubert telling her about all the courts he has been to including Mitchells Plain court and that whether she knows this one or that one as he trained on he of the attorneys.

Mr Saptoe then called us inside. He asked where my legal rep was. I explained to him that Mr abrahams and my attorney Shoven Bodasing had a telephone conversation the previous evening and resolved the matter. Saptoe said he is not aware of this as it happened outside of court. I then took out my phone while informing him that he received an email with regards to this. As I did this he reprimanded me to not take my phone out in court. I then replied "Okay..." He then reprimanded me again to not say okay as I am not his friend. He mentioned that I wasted his time as I asked for a legal rep and now he is not there. He asked me the process of the court order which I explained to him claiming my colleague was present as witness. He kept asking ehen fid he say this and when did that happen cutting me short when I gave answers leaving me with no way to explain my side of the story or giving eveidence. He then turned to abrahams to ask him what the vet results were. Jotted it down and did not ask for proof or my opinion. He then also asked
