Date:	2025-03-06
Time:	09:00
Inspector:	INSPECTOR ONE

Type:	CASE DISCUSSION NOTE
Follow-Up Date:	
Comments:	Saptoe said the court order is still live and aksed us what must happen. I said the matter has been resolved and he said outside of court doesnt count. Saptoe then asked Mr Abrahams what he wants to happen? Abrhams said that he feels it like a double edged sword hanging over his head and he doesnt want to be trageted again by the spca and want them near his premises, not giving access. Saptoe did not give me a chance and just jotted everything down and stamped the file claiming the case is closed. Saptoe also claimed he has never received a dispute with a court order before. I felt like a criminal myself for doing the right thing and following procedure. This was a horrible experience, one sided and I was bullied. I went outside to speak to Mrs Joubert about future court orders and what this was. She claimed that it was an open case because we were in court and that is how it is handled. But we were in Saptoes office and they only said that this was a discussion and nothing more. Because of this tramatic experience and concern for future cases, I approached our lawyer, Lynne to ask advise going forward. She said this was handled entirely incorrectly and not according to law and that she will contact Shiven to review this magistrate as she had issues with him before as well. She is going to try that we work through Paarl Court from now own seeing as we are being victimized after this. To close case for now.
