Inspector: INSPECTOR ONE

Type: CASE DISCUSSION NOTE
Follow-Up Date: 2025-03-18
Comments: Nic sent a email that read:

17 March 2025

Good morning Elani,

We were expecting to travel to Kraaifontein this morning to collect Sam , the last of our horses that were removed during the mountain fire on the Groenberg.

We had arranged to have Dr William Van Zyl present on our farm when we returned, so that he could conduct a medical inspection of both Sam and old Barns at the same time.

Unfortunately, Gail Venecourt in Kraaifontein messaged over the weekend to inform us that she was in Namibia and would not be able to go through with the Monday arrangement, but would be available on Tuesday 18 March 2025.

Now Dr Van Zyl is not available then but can come through to our farm on Monday 24 March 2025 to complete the examinations of both horses.

So he has agreed to provide his medical report on Barns to you soonest after his Monday appointment with us.

My apologies for this unforeseen delay in getting this report information to you.

In the meantime Barns is doing well and receiving 4 meals a day and eating with enthusiasm.

Kind regards,

Nic Goodwin

072-595 5984

To call Nic tomorrow.
