Type: CASE DISCUSSION NOTE

Follow-Up Date: 2025-03-31

Comments: I reveived the updtaed veterinary report from Nic Goodwin. They found that Barnes had signa of lameness and medication was given for this. If he doesnt improve within 5 days, they will humanely eithanize the horse. This day falls on a Saturday .

I typed a report and sent all relevant documentation to the nspca for feedback.

To follow up on outcome on Monday
