Follow-Up Date:

Comments:

Good day Simon Basson

As asked, my colleague and I went to Nuwedrif Farm to take a census of how many animals are staying with the farm workers and to whom they belong. Only one dog was sterilized according to our knowledge. Please see below for the current animals that are still unsterilized:

There are a total of 11 female dogs, 10 male dogs, 13 puppies and 2 cats.

1) Clinton Minnaar

1 x male dog

2) Lilian Swartz

1 sterilized female dog and 1 male dog

3) Niklaas Pienaar

2 female dogs of which one is pregnant

4) Chantel Swartz

1 female dog with

8 puppies

5) Franklin Minnaar

1 female dog with 5 puppies

6) Klaus Engelbrecht

2 female dogs

7) Charlene Willemse

1 male dog named Bonzo

8) Daniel Fransman

1 female dog named Raakvat

9) Jaquin Fortuin

1 male dog

10) Samantha Philland

1 male German shepherd name Max

11) Maria Fransman

1 cat and

1 male dog named Spotty

12) Megan Lee Swartz

1 male German Shepherd dog named Robin

13) Fransina September

2 male dogs

2 female dogs

1 cat

14) Petronella Antonie
1 male dog named Alvin

We then educated the workers about our sterilization program and gave them information pamphlets with the information needed.

Hope this helps. Please let us know if a sterilization day needs to be organized.

Kind regards
Elani Graham
