General Report Comments: Elani and I,Hugh arrived at the property and called Nic Goodwin.He then allowed us access and explained to us where to meet him.We then went towards where they are standing.

We arrived at the area and they greeted us.We then explained to them what the nature of complaint was and they agreed to let us in.We then saw Barnes first who was emaciated but was eating.They then explained that they feed him 4 times a day and also use the brand'Golden years',which is softer foods as they explained he was more than 30 years old and does not have good teeth.Elani then asked them when was the last time a vet was there in order to check out the equine and they mentioned that doctor William Van Zyl who they normally use was there the week before the last one.

We were then pleased and they asked whether they should bring lady forward aswell who was slightly underweight.We then explained that we can take a look at her and they brought her forward.Lady was slightly underweight but still in better condition than Barnes. We then took a look at their feed room and we could see they had a wide variety of different foods .They then explained that they feed Barnes Golden years,Cathay and Lucerne 4 times a day.They also mentioned their farrier comes out every 6 weeks and they use Dewald Pretorius.They also mentioned that their dentist is Louw Schabbert.They also have an equine Nutritionist named Jade Barnes and they use automatic water fillers.

Nic then mentioned that he will send us the recent visit report from the veterinarian via Email.His email is nicgoodwin75@gmail.com

To email Nic tomorrow.
