General Report Comments: I, Elani arrived at the property and met with the applicants. I took Maya with to do an introduction to the dogs as their car is too small to transport both of their dogs to and from the spca.

At first Maya was scared and growled and barked at both dogs. However their dogs were very calm and playful and did not retaliate at all. We spent some time with the dogs and realized that Maya didnt understand that Jasper want to play with her and is not a threat to her.

Their parking lot is seperated from the rest of the yard by a small fence. There were an affakkie and two kennels under this. And two bowls of water. The yard is big as it is a corner house. After spending quite a while together they decided to adopt Maya and we proceeded with the forms and payment. They ise Wahg as a veterinarian.

The day after Twané did inform me that Maya has settled in.

Home check passed.
