VETERINARY PROBLEMS / HEALTH CO	No
CONFINEMENT OF ANIMALS	Free roaming - in property

General Report Comments: Elani and I,Hugh arrived at the property.We then called from the outside.The owner then came outside with a very hostile demeanor.Elani then greeted her and explained to her who we are and the nature of the complaint made.Marietjie then mentioned that she has to put her dogs away first since they are aggressive.We then agreed and she gave us access.Upon walking inside we saw the leopard tortoise and she explained that they picked the tortoise up in the side of the road as cars were going to run over it.

Elani then explained to her that she can contact us or Cape Nature.She then said she is busy working with fauna and flora.We then walked through the rest of the house and she mentioned her gardener is only coming tomorrow.

The yard seemed okay and she explained the reason why people thought it was smelling like faeces is because she hung red tops(fly traps).We could then see that it was fairly clean.We also saw the African Grey in the outside and she mentioned that she does not feed any sunflower seeds.She showed us the mixture (as seen in the uploaded photos).

We then saw the two cats in the inside who was in good condition.We then explained to them that they can contact us at any time when they have situations like this.

To contact anri tomorrow.
