General Report Comments: Hugh and I, arrived at the property and met with Jandres mom that was at home. She granted us access.

We saw that their yard is open towards the driveway. I asked her whether they have kids or manage the opening of the gate and ahe said they do and do not have any kids.

The mother is at home the entire day and claimed that Doug will mostly be an inside dog. They have a large yard with a 1.5m high wall in front and 1.8m at the back. There is a gate that aeperatea the back yard from the front. Their carport is entirely closed to protect duke from weather elements. He knocks his water bowl over, therefore we quickly helped her with a resolution by placing the bucket in a tyre.

Duke is currently an outside dog and atill very young and not sterilized. We then explained the sterilization process to the mother and ahe was keen to have Duke sterilized the 4 th of April 2025 and aaid ahe will pay over the weekend as she pays at the end of the month.

Jandre works at Babylonstoren and this will be his dog.

Home check approved.
