VETERINARY REPORT:

8 April 2025

To whom it may concerned.

Client: Mrs. M. Goodwin

Patient: Barnes

A re –evaluation was done on the horse called Barnes on Friday 4th April 2025.

No lameness could be detected.

The horse is in good overall spirit and eating well.

The condition has stabilized and I am of opinion that the horse is in a positive energy balance and will be picking up weight from hereon.
