Comments:	I,Hugh arrived at the property and a young boy came outside.I then greeted him and asked to speak to Leighton.He then went inside and came back outside to inform me Leighton was not there but someone else will come and assist me. One of the tenants then came outside and I asked him about them surrendering the dog aswell as them getting the dip.They then showed me that they had gotten shampoo.I then asked about the other dog and when he will be leaving.They then mentioned that he is on a static chain in the back.I then mentioned that they should build a runner and I will give them 7 days to do so.They then agreed. As for surrendering the dog they mentioned that the dog will go and live with some family members. To follow up in 7 days.
