General Report Comments: I,Hugh arrived at the property and was greeted by Marcos mother.I then greeted her and she mentioned that she is aware of me coming.I then was pleased and she took me through.

Upon walking through I saw a ringneck in a cage with sunflower seeds and I educated her about the birds diet.She then mentioned she did not know but she will get a different food as soon as she can .

I then walked through and saw their dog Mila who was in really good condition.His mother then explained she knows how ghost looks aswell as Goliath.I then explained to her that her son would have to make a decision because ghost is not that fond of cats.She then mentioned that I will have to call her son to explain to him about the decision they need to make.They would also need to do a meet and greet with Mila and Ghost before he can go home.

Overall the area is good and they seem like loving people.Homecheck approved

To call her son today.
