Comments: Luciano and I, Elani arrived at the Little Star creche where the sheep was found bleeding. It was not there anymore. I proceeded to call Fredericks and he claiemd that the owner arrived and carried the goat home. I explained to him to wait for me next time, detain the people and tell me to bring my captive bolt. We then decided to go into Vlakkeland where the goat is apparently from but did not find anyone carrying a bleeding goat.
