Comments:	Anika and I, Elani arrived at Vlakkeland and saw one goat eith broken legs. There was a man claiming he knows the owners and wanting to fetch his neighbours. In this case nobody answered they phone and Fredericks was not with. I then just loaded the goat in the back of my bakkie with no hesitation and drove away fue to safety. I proceeded to humanely euthanize the goat with captive bokit and cut at the SPCA.
