General Report Comments: I, Elani arrived at the property and met with a lady named Jeanette and her son that was at home. Upon entering, I saw they have one cat that has been sterilized by us.

She gave me access to her house which is old but neat and clean. The cat had access to water and food. They have previously rescued her and sterilized her by us. They will use the mobile clinic for minor treatments and mainly use Dr Harry at Die Ark for bigger issues. Jeanette is retired and her son works from home.

I approved the home check and they got so excited and immediately went to the shops to buy cat litter etc and is willing to keep him mainly inside. This is because they live in an area where there are quite many dogs in the road etc.

Pre home check approved
