ADEQUATE SPACE AVAILABLE	Yes	
CLEAN LIVING ENVIRONMENT	No ***	Ringnecks
ANIMALS IN GOOD CONDITION	No ***	Ori emaciated
VETERINARY PROBLEMS / HEALTH CO	Yes ***	Ori
CONFINEMENT OF ANIMALS	Free roaming - in property	

General Report Comments: Luciano and I, Elani arrived at the property and met called out for someone. Nobody came out and when I started writing a contact notice in the bakkie, a woman came out named Teri.

I introduced us and explained the situation. She admitted the dog stays at this property. She gave us access and we went to the back yard where the dogs are kept. The entire property with the blue container is part of 34 Newton Road.

Ori the boerboel mother is emaciated and has pups that drink from her. The other dogs are all in good condition. I then educated her in detail what, when and how to feed the mother dog and what might help to improve her weight. Her older mother also came out and claimed things had been going bad since her husband died.

I also noticed two ringnecks in a cage outside that had a dirty cage and excess sunflower seeds as food. They showed me the bag of food that showed its cockatiel food. I explained in detail the diet birds should have.

I issued a warning to and gave an information pamphlet:

- 1) Provide Ori with dewormer (Triworm D) within 5 days.
- 2) Provide adequate food for the dogs within 5 days. Feed twice daily. Do not feed potato peels, pap, bones (puppy food)
- 3) Provide species specific food for the Ringnecks within 5 days and change over slowly.
- 4) clean the Ringnecks cage properly within 5 days.

To recheck on Wednesday.

ACTIONS

Warning Issued	150
